The system is exclusive for its choice of steel pipe-style legs of standard or adjustable height, allowing fast and easy extension of a table up to 800 mm from 650 mm in accordance with a height of a certain employee. Metal frame installed underneath the desk provides the table with extra durability. The system offers either panel or perforated metal covers for the legs.

An aesthetic and ergonomic design hides cables used at the work place. An optimal solution is created – from the porthole, surface cables are routed to the horizontal cable tray and integrated cable riser to remain unseen and safe. The other option is to use a vertical cable duct.

Comfortable. Functional. Aesthetic.
